

Complaints and Appeals Handling Procedure

1. Purpose and Scope:

This procedure aims to describe the steps adopted by RACS Quality for:

- Complaints Handling.
- Handling of appeal against a certification decision.

This Standard Operating Procedure applies to all parties that are involved in the complaints, appeals procedure, including the concerned RACS customer, RACS Quality Unit, the concerned staff members of the Operations Department and the Appeals Committee members.

All RACS clients have the right to make a complaint, or appeal against any certification decision if they can bring forward good arguments. This standard operating procedure outlines the principles and responsibilities with regards to complaints and appeals.

2. Responsibilities:

It's the responsibility of the Chief Executive Officer, General Manager, Quality Assurance Manager and Conformity Manager, to ensure the proper setting, implementation, and communication of this document.

3. Definitions:

Complaint: a "Complaint" means expression of dissatisfaction by individual(s) or organization(s) against RACS certification services before the certification decision issued.

Certification Decision: A decision taken by designated staff to grant or deny initial certification, confirm certification after surveillance audit, renew certification, extend a certificate, suspend a certificate, lift the suspension or to decertify. A Certification Decision becomes effective with immediate effect.

Appeal: A request to review and reverse a Certification Decision. Appeals against Certification Decisions are decided on by the Appeal/Review Committee.

Appeal Committee: The Appeal Committee is an internal quality control body that objectively supervises the decision-making process within RACS considering any raised argument and objection by the involved parties. Thus, it ensures that operations are exercised with due diligence and uniformity in interpreting the Standards. As a company-internal body its role is not that of an external and/or official arbitration body nor a court-like institution Process.
